and Advocacy

Guided
Implementation

Sustainable
Innovation

Economic Resources

Members gain exclusive access to industry insights, best practices, and a collaborative network dedicated to connecting communities and enhancing transportation options tailored to local needs. By joining, you'll have the tools and support to make a meaningful impact in mobility and expand your reach as a leader in creating accessible, inclusive transportation for all.

If you are impacted by access to mobility, transportation or have needs but don't know where to start, you can start with us! Mobility management networks are designed to improve the overall mobility for individuals, regardless of the rider characteristics, mode, or geography.

We advocate for effective and accessible transportation systems through collaboration, empathy, and informed decision-making. The Association of Mobility Managers was developed by mobility management professionals seeking excellence and a higher level of support.

As a member you will be:

- Seen and Understood
- Relevant
- Provided with a support system
- Effective
- Valued

Mobility management is a Federal Transit Administration (FTA) transportation program that focuses on meeting community needs through the coordinated use of a variety of transportation providers. It aims to enhance transportation for veterans, older adults, people with disabilities, individuals with lower incomes, and so many others improving access to healthy living resources through various transportation coordination activities. Such a critical program needs an association that understands and supports mobility management professionals.
